

Love & compassion
towards the needs of others.

STAFF

Diakonia, Inc. is staffed by a team of experienced professionals who receive ongoing training and provide around the clock care and attention for each youth. Each home is supervised by a facility manager who oversees the day-to-day operations and maintains continuous communication with program administrators and therapists. Resident care staff members are assigned to shifts that correlate with their individual expertise and what is in the best interest for the population served.

ANNIVERSARY

ABOUT US

Diakonia, Inc. is a Short Term Residential Treatment Program (STRTP) and service care provider operating facilities for adolescent youths ages 12 - 18 years of age with diverse cultural, ethnic, and social economic backgrounds who have been placed by counties through child and family services, and juvenile justice departments. Since its establishment in 1989, Diakonia Inc. has continued to bolster its purpose by providing therapeutic, innovative, and impactful services for youth that come to the agency with a variety of psychological, social emotional and behavioral struggles; as well as the community-at-large.

MISSION

Founded in 1989 Diakonia, Inc. is dedicated to augmenting the lives of youth by developing their unique selves. Through utilization of therapeutic and practical tools, specialized education, and strategic activities, the youth are enabled to thrive. We remain committed to their families and interested parties, providing practical help, and support that not only strengthens family relationships and their well-being, but ultimately fortifies, propels, and sustains communities. In an age of impersonal care, our staff remains on the forefront of best practices, and is committed to providing quality care through love, and compassion for the individuals, and families we serve in a safe, well-maintained and inviting environment.

RESIDENTIAL PROGRAM

Diakonia, Inc. provides residential therapeutic treatment services for adolescents in need of specialized care in a secure, and structured environment. Our comprehensive program operates on a behavioral level system led by therapeutic clinical services at the foundation. As residents participate in the program, they are able to earn increased privileges, and assume higher levels of responsibility commensurate with their progress towards targeted behavior, and treatment goals.

CLINICAL PROGRAM

With thorough support, therapy, and clinical services provided by our licensed clinical professionals, Diakonia, Inc. aspires to enhance the resident's self-worth, and confidence in themselves, and their future. We do this by providing a living environment that is conducive for them to achieve their treatment goals. Each resident is required to participate in individual, and group therapy weekly, along with clinical support services, as needed based on their specific Needs & Services plan, and treatment goals.

EDUCATIONAL SERVICES

After admission into the program, an assessment is made of the adolescent's educational status and recommended educational setting. Our admissions coordinator works with the respective school districts to make arrangements for the educational placement best suited to satisfy the resident's specialized Educational Plan (EP).
